

OPPORTUNITY WITH POWEREX CORP.

Junior Developer

Powerex Corp., a wholly-owned energy marketing subsidiary of BC Hydro, is a leading marketer of wholesale energy products and services in western Canada and the western US and a growing niche player in other markets across North America.

At Powerex we work hard to provide our customers -- utilities, power pools, large industrials and power marketers -- with the energy products and services they need, when and where they need them. From energy and capacity sales to natural gas trading, Powerex has come to be known as a power marketing and trading company with the reliable supply, business flexibility and customer commitment to get the deal done. Supply – Flexibility - Commitment. We stake our reputation on it. For more information about our company, please see our external website at www.powerex.com.

ROLE DESCRIPTION

Position: Junior Software Developer (Full Time - Contract Position)

Duration: Initially 6-months, possibility of extension

Powerex Corp. has an exciting opportunity for a Junior Software Developer within our IT Department working with a group of dedicated IT developers, business analysts and project managers. We are looking for someone who desires to gain more than just programming experience. If you are driven to succeed, team-oriented, creative, "able to make things happen", and demonstrate strong communication and analytical abilities, we want to hear from you!

This Junior Software Developer position within our IT Department directly supports our business operations and for the right individual, this will mean numerous technical and non-technical learning opportunities, as well as exposure to the dynamic environment of energy trading.

Responsibilities

- Lead or provide support in the design, development, testing and sustainment of new and existing applications to address business and IT needs
- Interact with Business Analysts, Solution Architects, and end-users to elicit and understand business/technical requirements and specifications
- Develop and document application design specifications.

QUALIFICATIONS

- Ability to take the initiative and be a problem solver
- Demonstrated .NET framework 4.0+ and C# development experience
- Demonstration of Oracle PL/SQL or SQL Server (T-SQL) skills and experience
- Ability to analyze and interpret requirements effectively
- Ability to adapt and work well in a team development environment
- Ability to learn new applications, tools, methodologies and aspects of the business quickly
- Requirements gathering, clarification, and documentation experience would be an asset in addition to the must have development skills.
- Experience

with Web development (HTML5, JQuery/AngularJS, and WebAPI) is an asset

- Experience with Excel programming is an asset
- Experience VB6 is an asset
- Experience with SQL Server based tools. SSIS, SSAS and SSRS is an asset
- Familiarization and experience using integration technologies (Application Services, Web Services, WCF, ORM tools etc.) to implement n-tier applications is an asset
- Modeling experience including process diagrams, activity diagrams, entity relationship diagrams is an asset
- Ability to stay organized with minimal supervision in an environment where you will have multiple tasks, tight deadlines, and changing priorities.
- Self-starter who thrives in a dynamic work environment and has a demonstrated attitude of customer service, accountability, integrity and teamwork.
- IIBA and/or a Project Management certification are an asset.
- Experience and/or courses related to the energy markets are desirable but not essential.

We thank all applicants for their interest; however only those selected for an interview will be contacted.

Prospective candidates must be self-starters and be able to work with limited supervision. Must be available to work regular office hours Monday to Friday (9:00 am or earlier start time) on site at our head office; working from home is NOT an option.

All International applicants must have a valid employment Visa authorizing their ability to work in Canada. A background check and references will be required for the position.

We thank all applicants for their interest; however only those selected for an interview will be contacted.

To Apply: Submit applications for this position by email to chris.macrae@powerex.com
